

Epigenetics Society

<http://epigeneticsocietyint.com/>

The **Epigenetics Society** is an international scientific society open to all those interested in the epigenetics of any organism and all aspects of epigenetics, including:

- DNA methylation
- DNA hydroxymethylation
- Histone modifications
- Other chromatin modifications
- Chromatin higher-order structure and remodeling
- Non-coding RNA related to chromatin structure or DNA modification

- **Individual membership is free starting May, 2016**
 - **The online membership form is at:**
 - <http://epigeneticsocietyint.com/join/>

Membership in the society provides:

- Monthly e-news including:
 - Epigenetic abstracts in press or newly published
 - Job postings
 - Conference announcements

- Ability to share abstracts and other news in our newsletter & to post at our website

<http://epigeneticsocietyint.com/>

Corporate membership is available for \$300 per year

- With a listing and link at our website
- For more information, contact epigenetics.society@gmail.com
